

40V Cable Reel 25m 1.25mm

EC16

• Description:	This 25m Cable Reel, designed and built with precision, is ideal for large workspaces, outdoor events, or extensive home gardens. Featuring a robust 1.25mm cable thickness, it is built to withstand regular use and varying electrical loads. Multi-socket configuration is a practical solution for busy environments where multiple devices need to run concurrently. It incorporates features like thermal overload protection and a safety cut-out mechanism, which prevent overheating and potential power surges. The high-quality construction of the reel adheres to strict safety and performance standards.
• Frequency:	50/60Hz
• Input current:	13A MAX.
• Input/Output Voltage:	240V/240V
• Box Dimensions:	24x21.5x33cm
• Net Weight:	3.5kg
• Sockets:	4 x 13A
• Voltage:	240V
• Plug Type:	13A
• Features:	Thermal Cutout with Neon Light, IP20, Safety Level: Class I
