

# 240v 3 Way Splitter (16a)

EC74

• <b>Material:</b>	Polycarbonate
• <b>Description:</b>	This splitter is designed to efficiently distribute power from a single 16A plug to three 16A couplers, making it ideal for construction sites, industrial environments, workshops, and commercial setups. Constructed from high-quality polycarbonate, this splitter is tough, lightweight, and impact-resistant, ensuring long-lasting performance in demanding environments. It is compatible with various 240V power tools, equipment, and site lighting, ensuring efficient power distribution. Suitable for both indoor and outdoor applications. Fully comply with UK electrical safety regulations for secure and stable power distribution.
• <b>Colour:</b>	Blue/White
• <b>Box Dimensions:</b>	28.58x25.4x17.78cm
• <b>Net Weight:</b>	0.45 kg
